SIMONIZ®...*high performance cleaning products for everything that needs cleaning in the workplace.*

THE SATURDAY EVENING POST
MAY 17, 1947

The Simoniz® brand is truly an American classic, one of the most recognized brands in America today. Founded by George Simons in 1910, Simoniz® products were originally based on a cleaner and a carnauba wax product for car finishes. With the introduction of vinyl and linoleum in the 1950's, the Simoniz® brand also became synonymous with

floor care. Simoniz® slogans, “the self-polishing floor wax” and “it shines while it dries”, were seen, heard and recognized by millions of Americans. The Simoniz® brand stood for quality and protection.

In July of 2014, Simoniz USA purchased Epic Industries, a leader in full service ware washing throughout the northeast. Combining the extensive ware washing product line that Epic has perfected over their 90 plus years, including the popular Swell® Brand, Simoniz® using its resources and distribution network, can take this product line to a national level. We have the ability to be a complete source for restaurants, nursing homes, and all types of establishments that require service for dish machines, dispensers and the cleaning products necessary to maintain a healthy and clean environment.

Today, Simoniz® manufactures over 3000 products for the institutional, industrial, retail and commercial markets. Our chemical laboratories are staffed by professional chemists and engineers who have formulated the country's most extensive line of professional cleaning products, that are distributed coast to coast.

Simoniz® USA, Inc. prides itself on the quality of its products, and its deep commitment to the research and development of products and

“Put the success of Simoniz® brand products into your workplace today!”

establishments, manufacturing plants, school systems, the hospitality industry and the auto appearance industry.

Simoniz® quality products are manufactured and supported by our state-of-the-art, 250,000 square foot manufacturing plant which includes modern decorating and silk-screening capabilities,

high-speed filling lines, bulk storage tanks, quality engineered material handling systems, and a climate controlled environment that insures cleanliness and productivity.

When it comes to cleaning and protecting hard surfaces, Simoniz® is the brand preferred by millions of professionals nationwide.

systems that will clean and protect a wide range of hard surfaces more efficiently and safely.

Simoniz® products have become the products of choice in the widest spectrum of workplace environments. Our floor care and personal care products, disinfectants, waxes and polishes, and all-purpose cleaners are widely used in hospitals, nursing homes, food service

SIMONIZ[®]

My Hands Are Clean!

Increasing Hand
Sanitizing through CDC™ -
"Conscientious Daily Compliance".

Simple Immediate Feedback — Reminds staff and visitors to sanitize in, sanitize out.

SaniCheck[®] reminds staff and visitors if they fail to sanitize their hands...when either entering or exiting a patient's room. Typically located in the hallway and connected to our hand sanitizer dispenser, Sanicheck[®] flashes a green light when hand sanitizer has been dispensed or presents a red flashing light and a soft audible warning when staff or a visitor enters or exits the patient's room without sanitizing their hands. These visible and soft audible warnings either reinforce a proper hygiene protocol or reminds staff or a visitor to return to the hand sanitizer dispenser to sanitize their hands. Compliance information can be remotely accessed as required.
