

*A heavy-duty, high foaming alkaline detergent designed for cleaning floors, walls, food service equipment, smoke houses, heavy grease and oil.*

### Where To Use

Kitchens      Meat Rooms      Food Processing Plants  
Hotels & Motels      Restaurants & Foodservice Operations

### Dilution

Regular Cleaning: 2oz./gal  
Heavy-Duty Cleaning: 4oz./gal

### Directions

This product generates thick foam. It clings to overhead and vertical surfaces allowing its detergent action to penetrate and loosen a variety of soils such as grease and fat. Prime Cut was designed for use in meat packing plants but can be used to clean a wide variety of surfaces, such as shower stalls, locker rooms, etc. Use hot water in a high pressure hose with a nozzle, or pressure sprayer to remove the heavy soil from the surface. Then, use Prime Cut in a foaming device or foaming equipment and follow the recommended procedures specified by the equipment manufacturer. Allow the product to be in contact with the soil for 2-3 minutes. Do not allow the product to dry on surface. Rinse well. This product may be used by a mop or other suitable means as well. Allow solution to penetrate and rinse with water.

### Technical Specifications

COLOR: ..... Light Blue	VISCOSITY: ..... Water Thin
FORM: ..... Liquid	STORAGE(Unopened):... 1 Year @R.T.
SCENT: ..... N/A	BIODEGRADABLE: ..... Yes
pH: ..... 13.5-14	WEIGHT/GAL: ..... 9.2 lbs.
