

A neutral, premium quality pleasantly lemon-scented, liquid hand dish detergent that has long lasting foam, is tough on grease and mild on hands. It's highly concentrated, so a little goes a long way.

Where To Use

Hospitals	Restaurants	Institutional Ware Washing
Schools	Supermarkets	Delicatessens

Dilution

1/4-1/2 oz./gallon of water

Directions

Use 1/4-1/2 ounce per gallon of dish water depending on soil load. Begin by running faucet with warm water. As water is flowing in, add enough detergent to get a good foam level. Begin by washing glasses, flatware and dishes and finish up with pots and pans. Rinse all wares and utensils thoroughly with fresh water.
