

GLASS SPLASH

DESCRIPTION

A uniquely formulated, fast-acting glass cleaning compound developed to penetrate and dissolve dirt and oily stains from glass, plexiglass and mirrors. A special blend of surfactants and wetting agents provide excellent cleaning without streaking. This is a heavy duty institutional formula, which offers quick cleaning for all types of applications.

INSTRUCTIONS

This product is a ready to use product, so no diluting is necessary. Spray an even mist onto surface. Wipe over entire area and then polish dry. For best results, use lint free towels or cloths. Discard towels or cloths when they become heavily soiled. Sponges may be used for large areas, followed by drying with a squeegee or paper towels.

This formula quickly penetrates and dissolves even the most stubborn deposits of dirt, smoke films, insect remains, oily stains, fingerprints and lipstick. A non-streaking product containing no acids, alkalis, or harsh abrasives to scratch surfaces. Use also to clean appliances, fixtures, chrome, stainless steel and aluminum.

FEATURES

- Non streaking formula
- Ready To Use
- Leaves glass and hard surfaces sparkling
- Safe on plexiglass
